# Healthy Chicago Equity Zones Request for Proposals

- Regional and community-based organizations
- Hyper-local strategies
- Advance health and racial equity, starting with targeted vaccine outreach

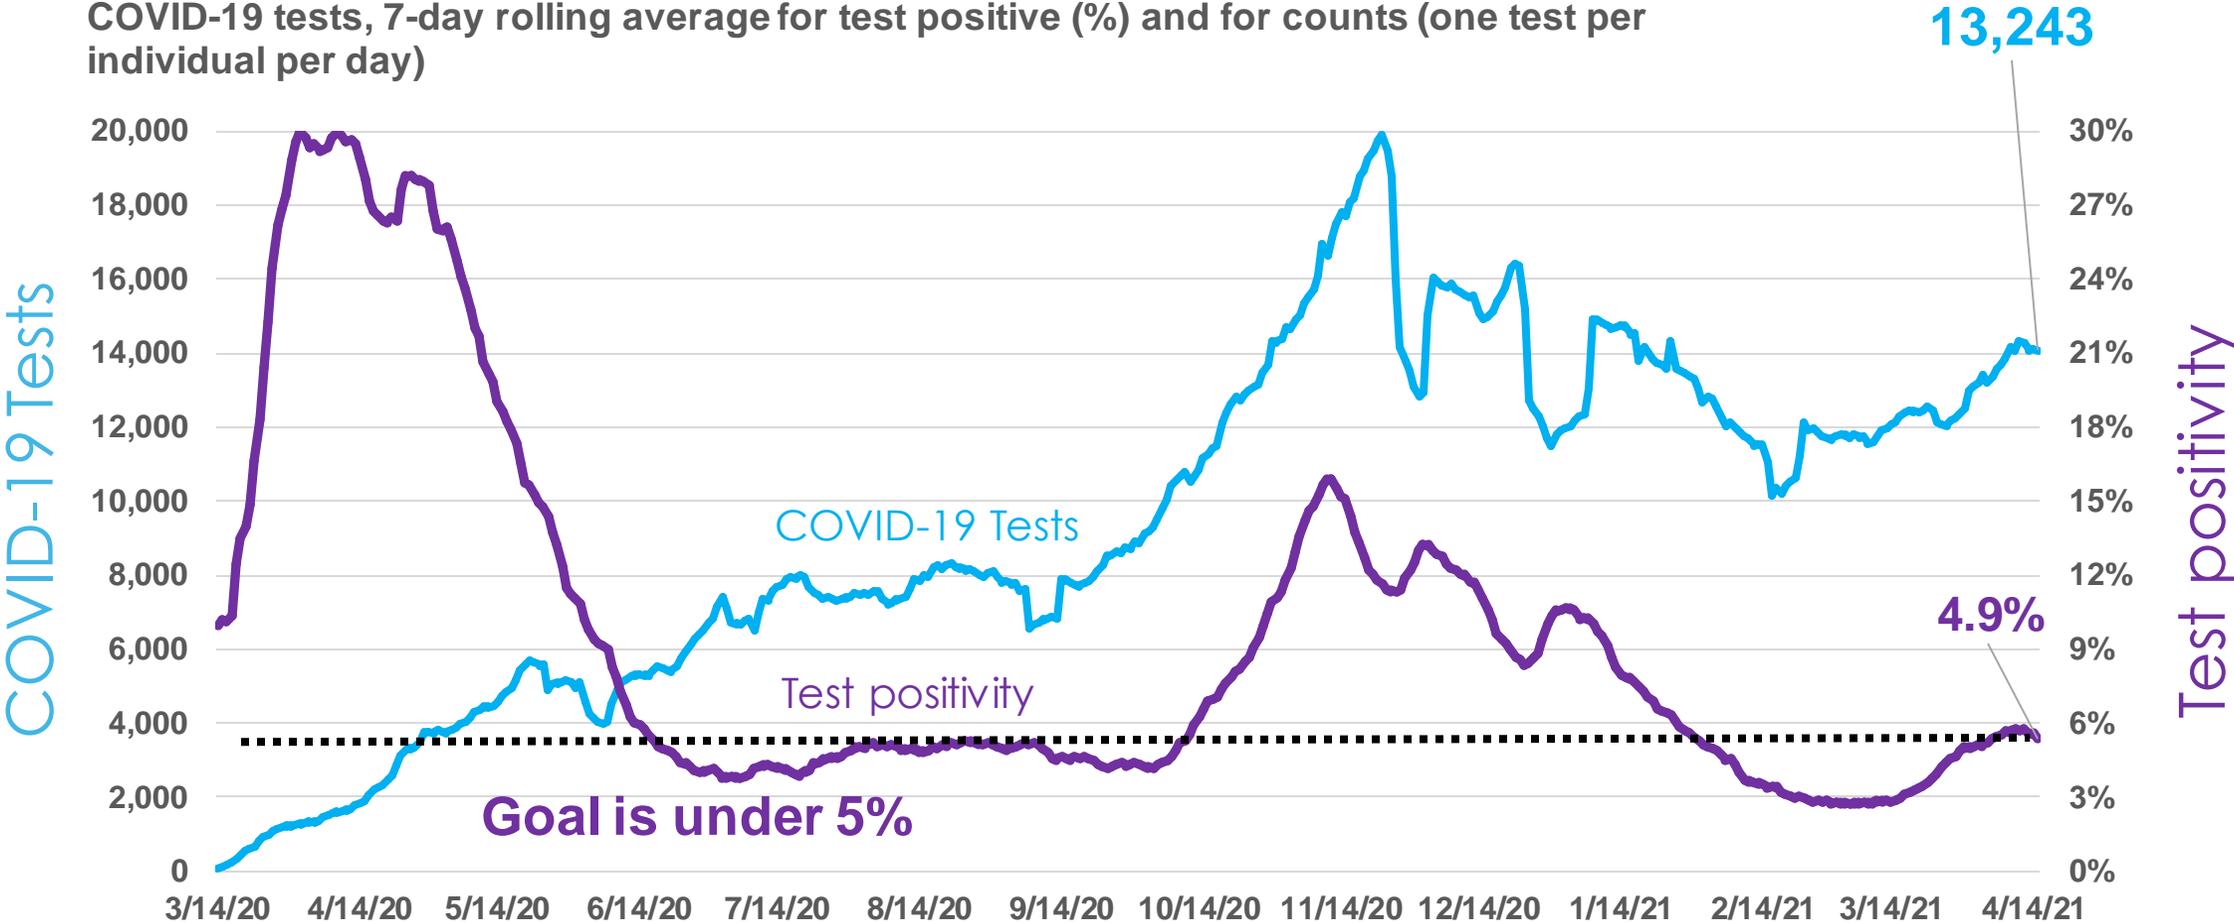

# Chicago COVID-19 Community Risk Matrix - Phase IV

	Very high risk	High risk	Moderate risk	Lower risk	Low risk: Controlled transmission
COVID-19 cases diagnosed per day <small>Chicago residents 7-day rolling daily average</small>	800+	400 – 799 <b>current: 548</b>	200 – 399	20 – 199	<20
COVID-19 test positivity <small>Chicago residents 7-day rolling daily average</small>	10%+	6.6 - 9.9%	5.0 - 6.5%	2 - 4.9% <b>current: 4.9%</b>	<2%
Hospital beds(non-ICU) occupied by COVID patients <small>Chicago hospitals 7-day rolling daily average</small>	1250+	750-1249	250 - 749 <b>current: 374</b>	100 - 249	<100
ICU beds occupied by COVID patients <small>Chicago hospitals 7-day rolling daily average</small>	400+	300 - 399	100 – 299 <b>current: 146</b>	20 - 99	<20
<i>Additional considerations within each risk level</i>	<i>*Metric will revert to <b>very high</b> risk if 7+ consecutive days <math>\geq</math>15% higher than the week prior</i>	<i>*Metric will revert to <b>high</b> risk if 5+ consecutive days <math>\geq</math>10% higher than the week prior</i>	<i>Metrics must continue to decrease or remain stable relative to the week prior</i>	<i>Metrics must continue to decrease or remain stable relative to the week prior</i>	<i>Metrics must continue to decrease or remain stable relative to the week prior</i>

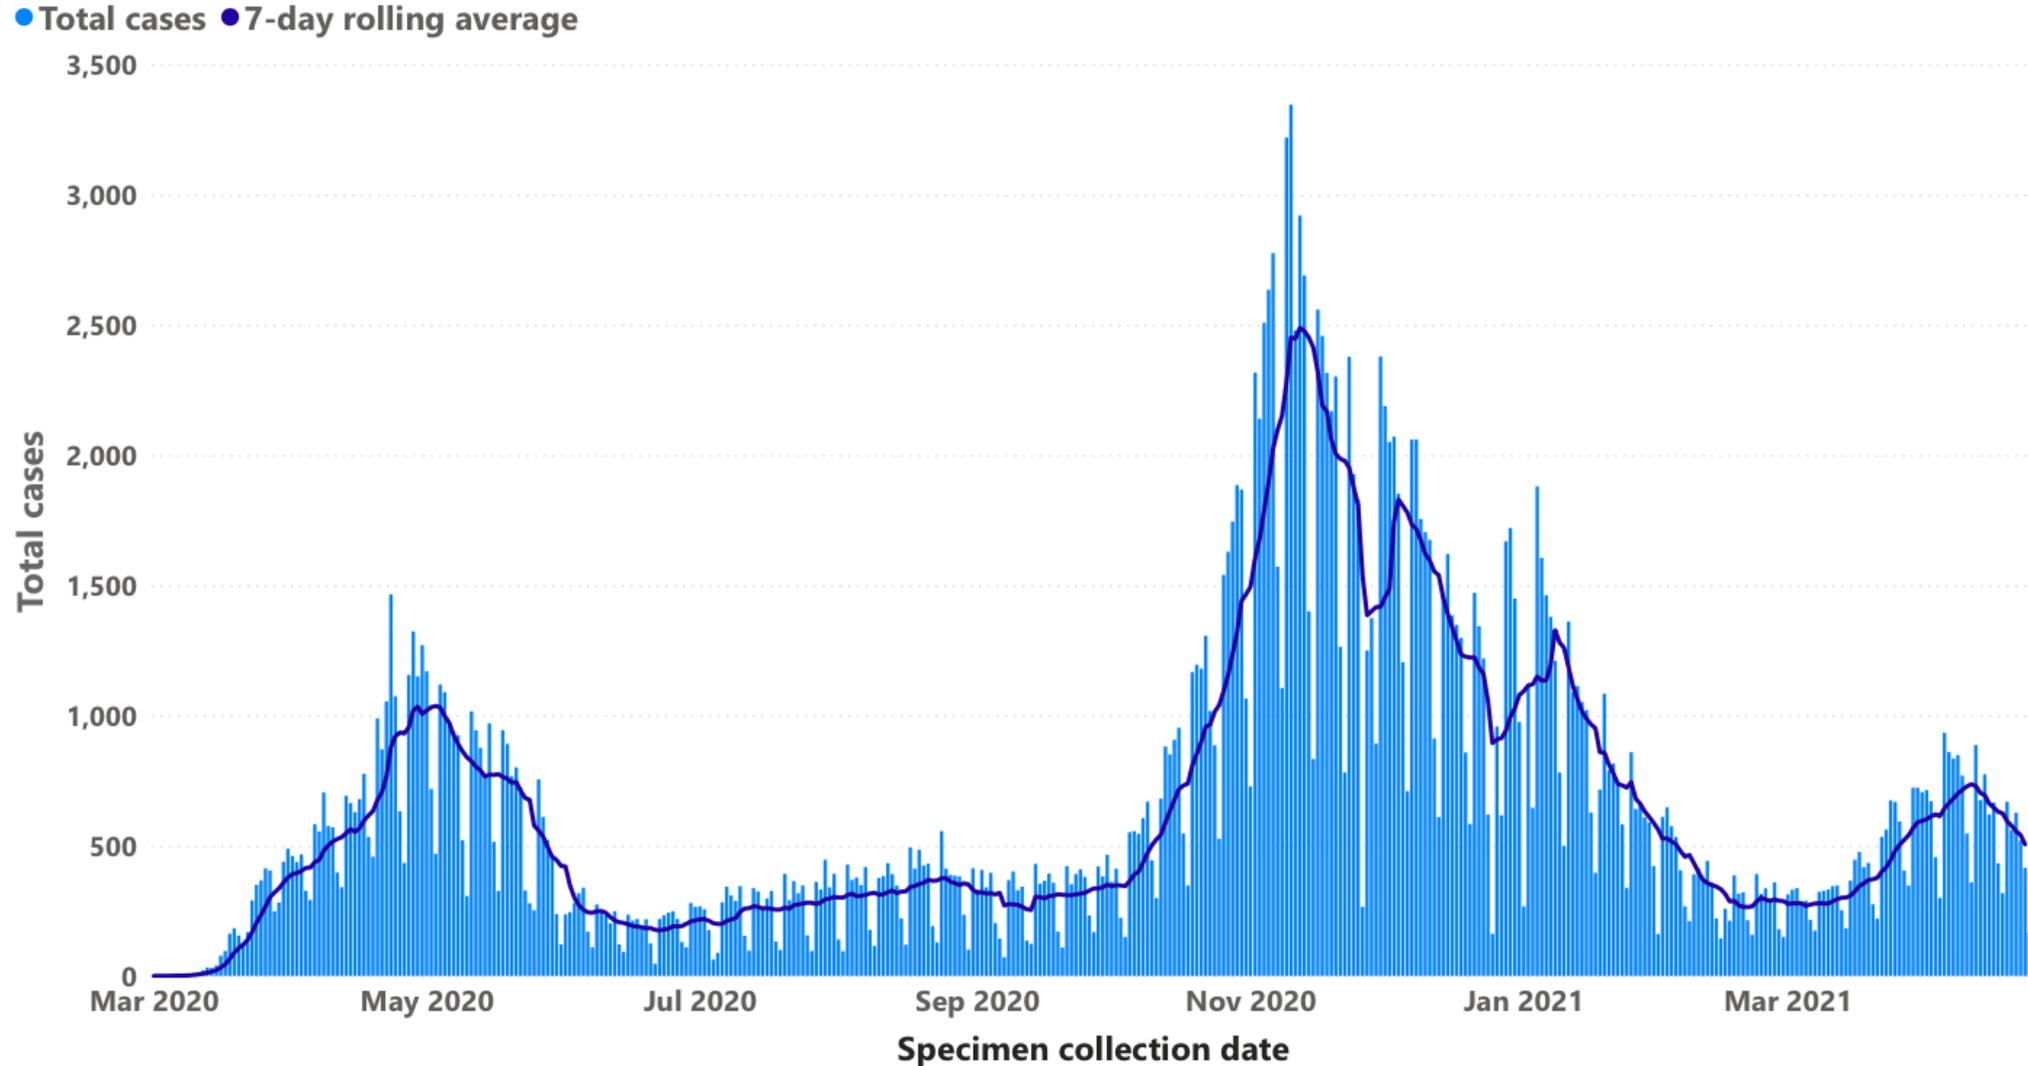

Source: Chicago Department of Public Health, data current as of April 13, 2021. These metrics represent general community COVID risk and should not be applied to individual settings that have mitigation practices in place.

# Testing remains high, with positivity now under 5%

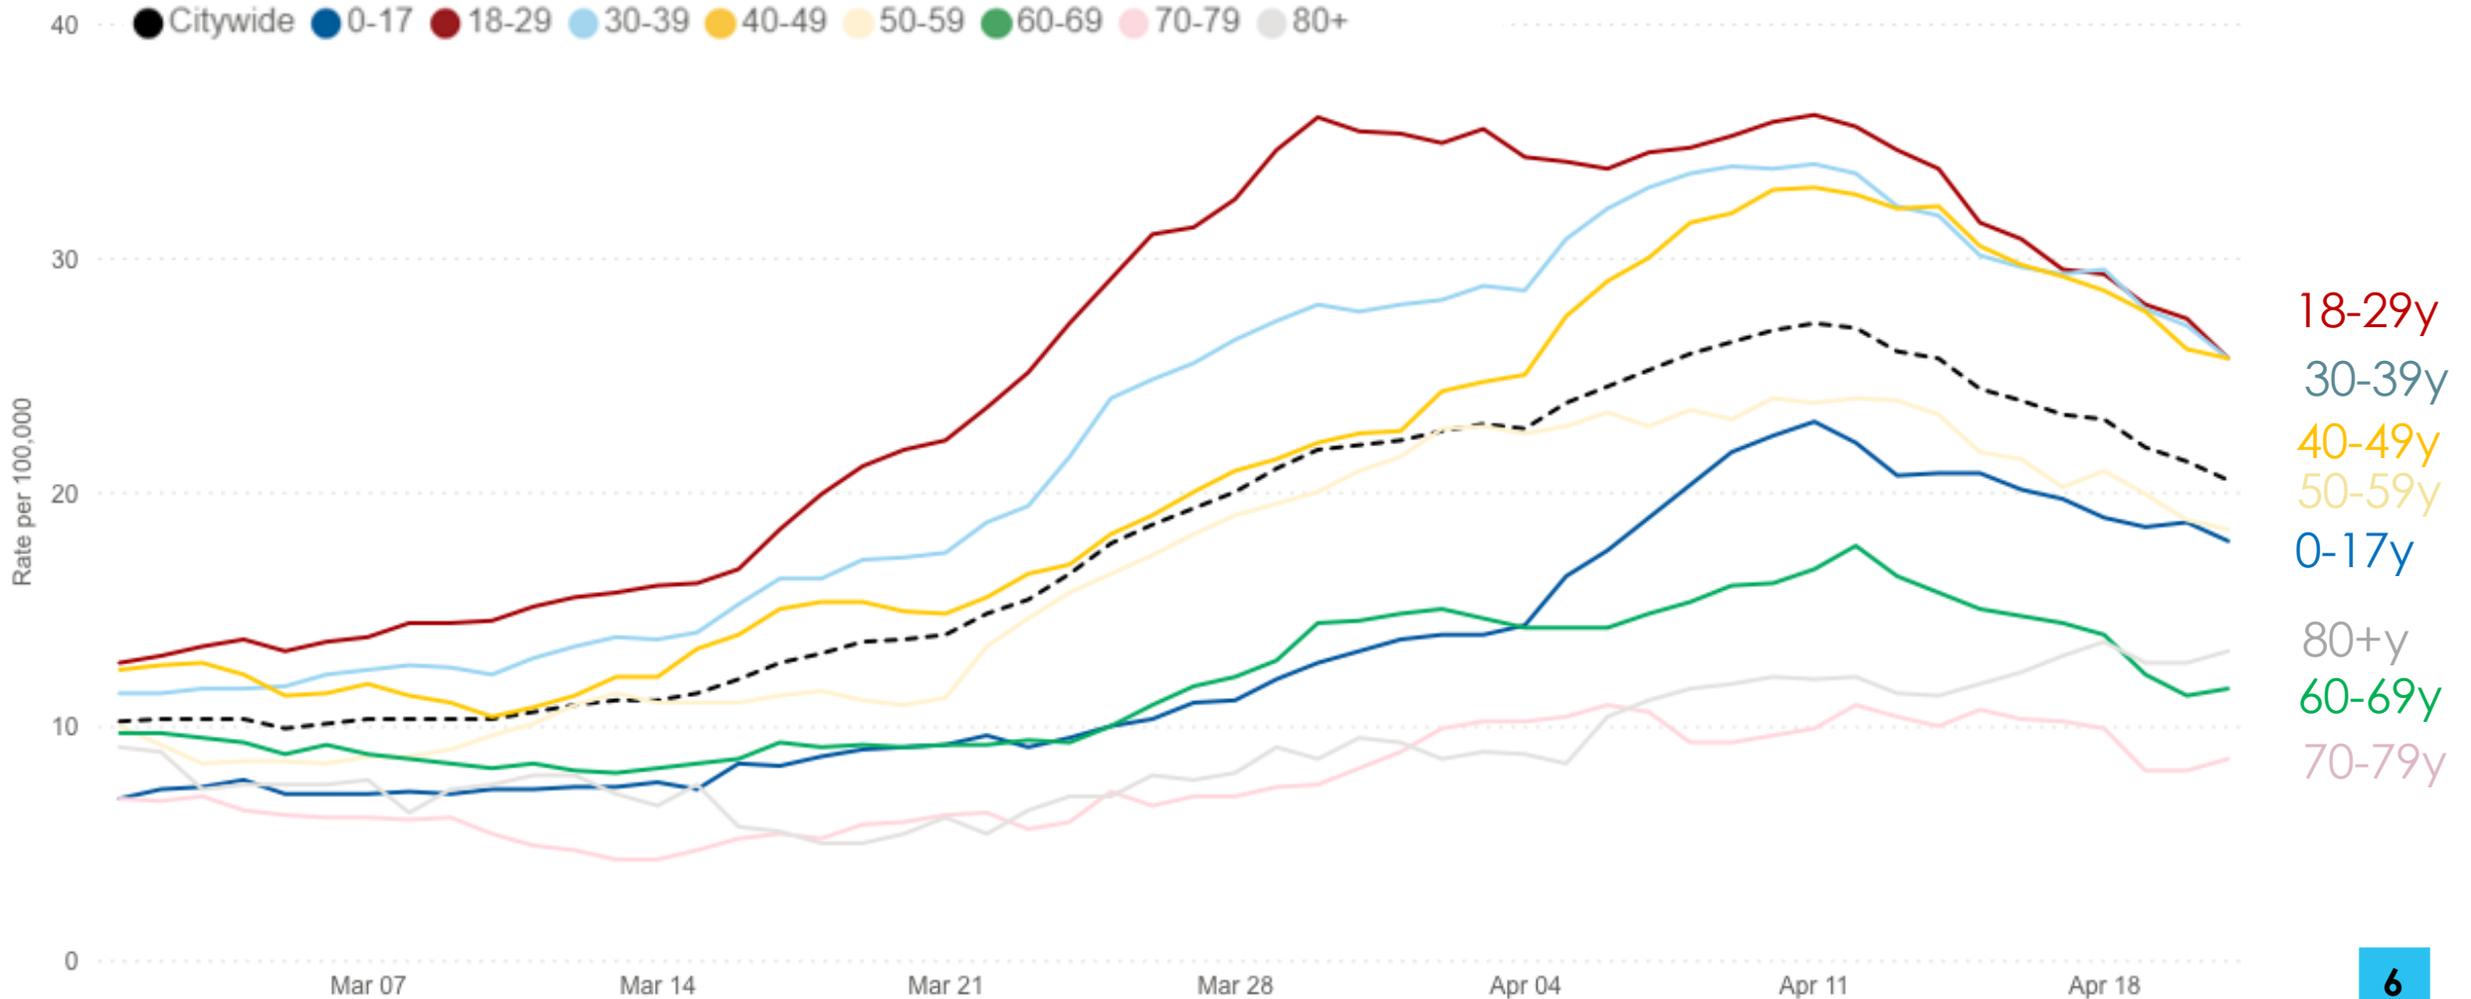

Test positivity is the number of positive tests divided by all tests performed (Source: INEDSS).

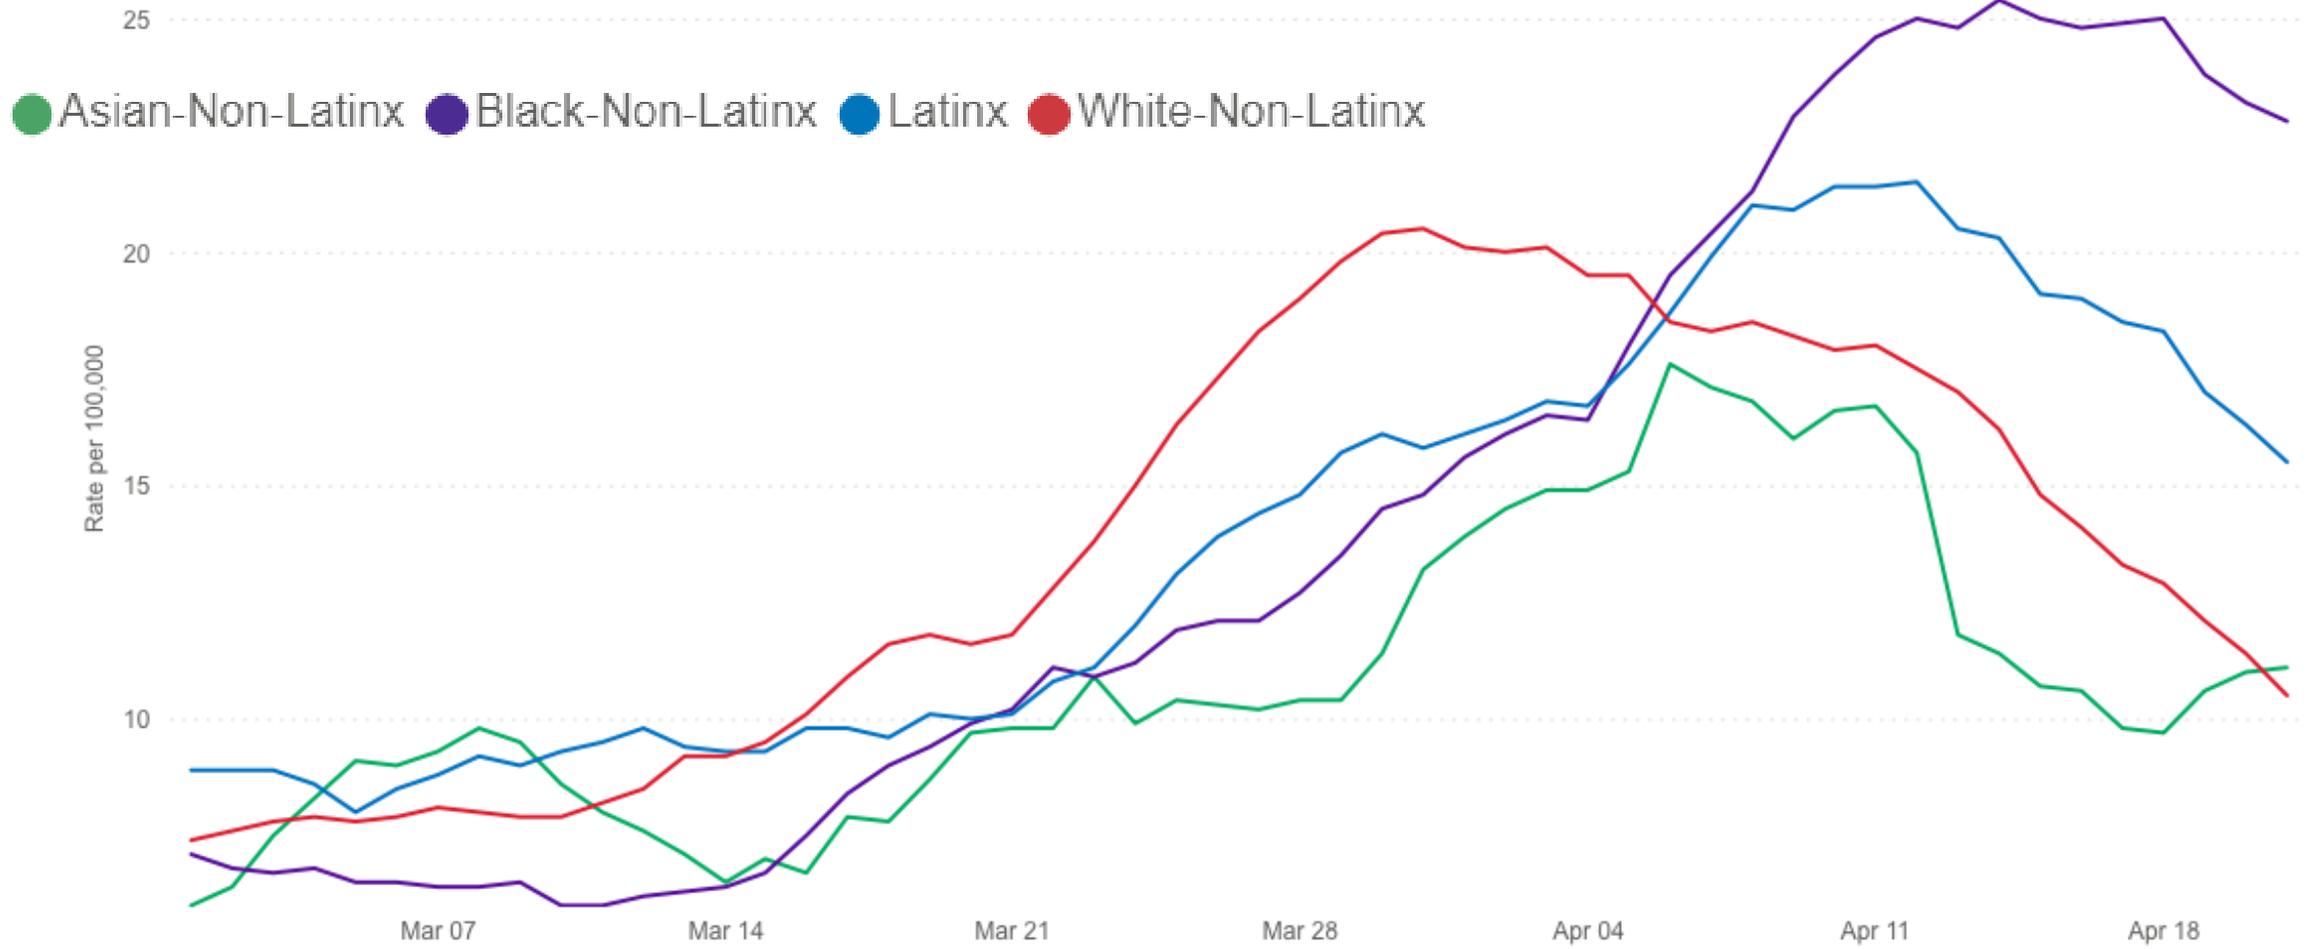

# New COVID-19 cases in Chicago are declining

# Most new COVID-19 cases in adults age 18-49; seeing increases in Chicagoans age 80y+

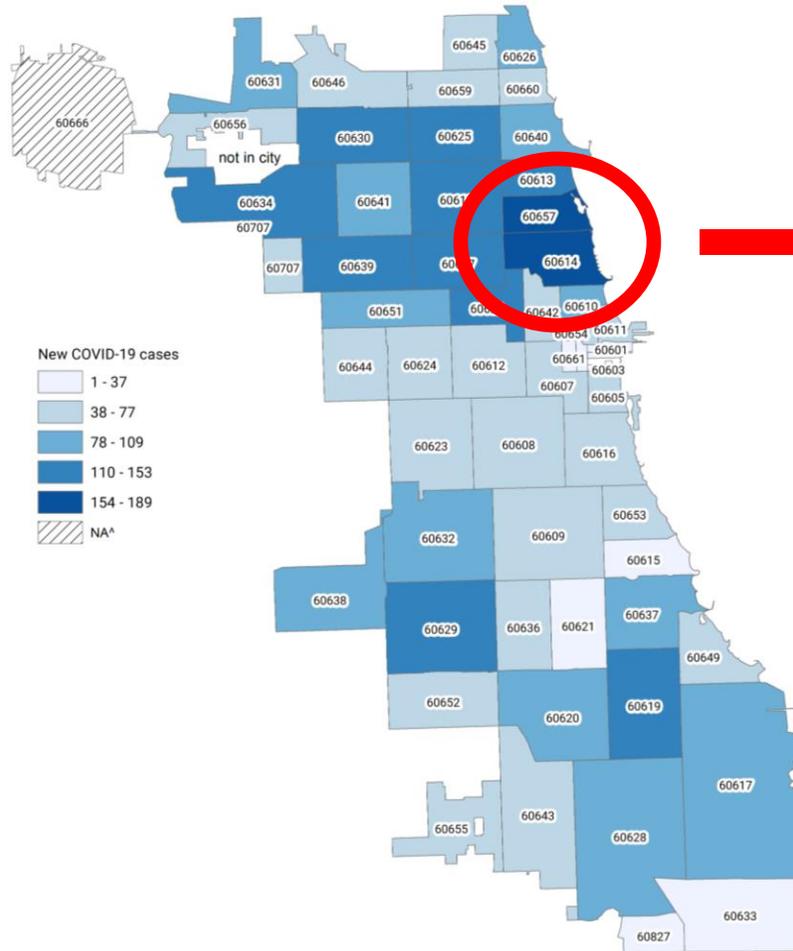

# New COVID-19 case rates remain highest in Black Chicagoans

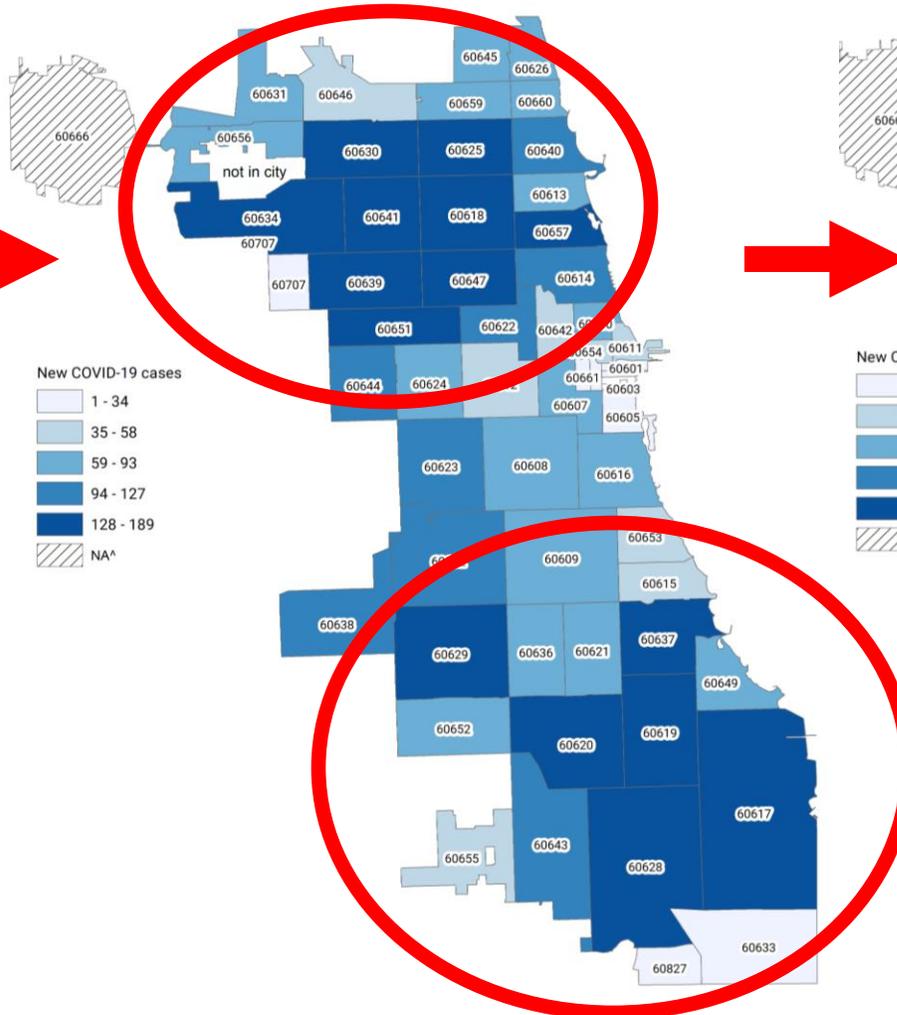

# Most new COVID-19 cases are now on the south side

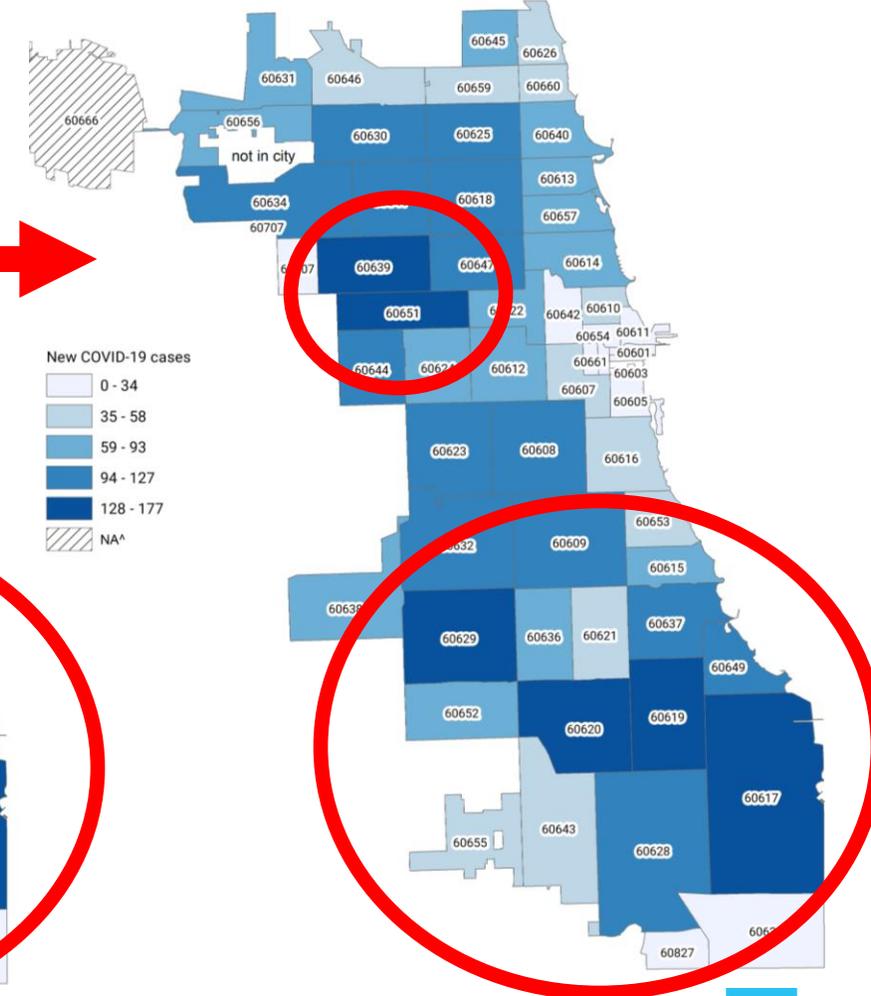

Week ending 4/3/21  
(n=4,316)

Week ending 4/10/21  
(n=5,053)

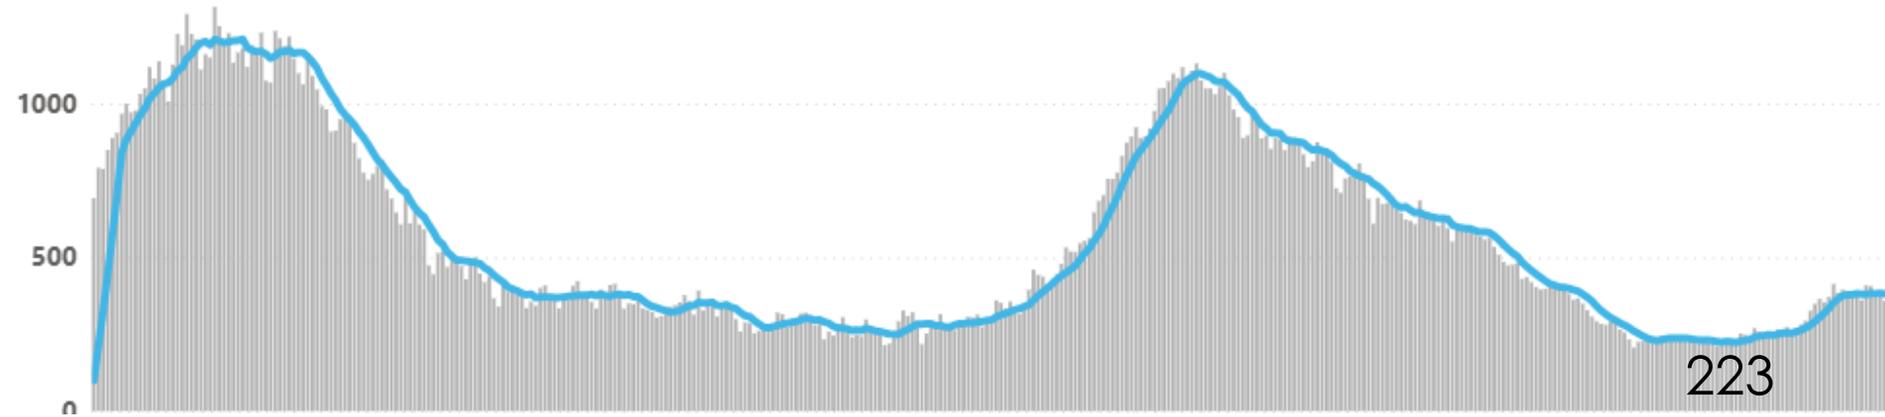

Week ending 4/17/21  
(n=4,414)

# Increases in COVID-19 hospitalizations in Chicago have slowed (general and ICU); we have adequate capacity

Acute Non-ICU Beds Occupied by COVID-19 Patients (3/19/2020 - 4/25/2021)
